# Witchy autumn wands

## You will need:

- A stick
- Some coloured wool, ribbon, or string
- Natural items, such as feathers, leaves, nut cases

## How to make your wand:

- 1** Take your stick and tie the wool, string, or ribbon in the middle.
- 2** Wrap the material tightly around the stick, using it to hold the natural items you collected in place. Try using different colours to make it wonderful and bright.
- 3** Once finished, tie your string in a knot at the top of your stick, so that it doesn't unravel.

Use your wand to cast some spells!

Share your creations with us on social media.
